Dr. Joshua Lederberg
Ass't. Professor of Genetics
The University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

I think that the Booth-Green Mill is about your best bet still. The ultrasonic equipment is very expensive and has a small capacity. The Unicam Instrument Company of Cambridge, England, is still making them at a very reasonable price, I understand. Some acquaintances of mine have bought a model from them recently and were quite pleased.

I hope to see you before too long in Madison.

Yours sincerely,

David Green
