Dear Josh:

Thanks for the culture and the dope on the chloroacetate mutants. We will let you know how we come out.

A letter came from Esmond this morning on the samples which you took to him but I have not had time to go over it yet.

Mike Doudoroff was through here a few days ago and spent a day with us. It looks at the moment as though we will be able to get him to participate at a round table at the S.A.B. meeting and I hope that we can on that basis count on you presenting some of your recent work from a more enzymatic angle. I will let you hear more about this in a few days and get your reactions.

see f

With best regards,

Yours very truly,

*Gunsalus*  
I. C. Gunsalus

P.S.

ICG:dd

what would you think of a  
stasis + multiple adaptation -  
Pseudomonas etc
