POST OFFICE BOX Y
OAK RIDGE, TENNESSEE

September 22, 1955

Dr. Joshua Lederberg
Department of Genetics
College of Agriculture
The University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

We are mailing you under separate cover four copies of the "Symposium on Genetic Recombination."

Requests for copies of the Symposium are filled only if the request includes a statement of the problem the person is working on and why he needs a copy of the Symposium. In general, we do not fill postal card requests except when we know people personally. Copies of the Symposium have gone to all subscribers of the Journal of Cellular and Comparative Physiology and, in addition, to about 1000 investigators working in the cytological-genetical field.

We will have a note in "Science" stating that copies of the Symposium are available to investigators who can establish the need for it.

Best personal regards to you and Mrs. Lederberg as well as Larry Morse.

Sincerely yours,

A handwritten signature in cursive script, appearing to read 'Alex. Hollaender', written in dark ink.

Alexander Hollaender
