

December 14, 1952

Dear Dr. Hutchinson:

I have recently been requested to send some *E. coli* K-12 cultures to Miss. Daisy Kuhn in your laboratory. In addition, my colleague, Dr. T. C. Nelson has been asked to do the same by Miss Mary Medill who is, I believe, also working in your laboratory. I am enclosing a set of these cultures, and would appreciate it if you would distribute them to Miss Kuhn and Miss Medill, as requested. A description of the cultures and their use is also enclosed.

Sincerely,

Joshua Lederberg
Associate Professor of Genetics
