COMMUNICATIONS TO THE COMPANY

Dr. Joshua Lederberg
University of Wisconsin
Madison 6, Wisconsin

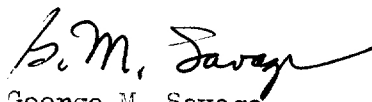

Dear Dr. Lederberg:

During conversations at the recent S.A.B. meetings in Minneapolis, Dr. Carl Lindegren mentioned that you had some very carefully worked out techniques for selecting the mutants you seek with a minimum of screening. I tried to get in touch with you, but missed seeing you.

Do you have anything in printed form, reprints or otherwise, on your methods of mutant selection? If you do, I would greatly appreciate receiving such information.

Very truly yours,

THE UPJOHN COMPANY
