DAVIS, CALIFORNIA

June 26, 1957

Professor J. Lederberg
University of Wisconsin
Madison, Wisconsin

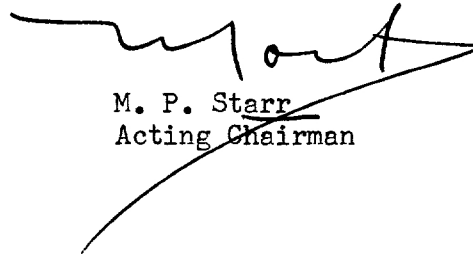

Dear Josh:

Jerry Marr said you'd like to see our papers on Xanthomonas transformation. I prepared a paste-up of the galley proof from Journal of Bacteriology for this purpose; I hope it serves.

All sorts of hot rumors have you moving west. How nice for us IF the scuttlebut is true!!

Best regards to Esther.

Cordially,

A handwritten signature in black ink, appearing to read "M. P. Starr", with a long, sweeping underline that extends to the right and then curves back down.

M. P. Starr
Acting Chairman
