Dr. Joshua Lederberg
Department of Genetics
The University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

This will acknowledge your letter of August 21, 1951

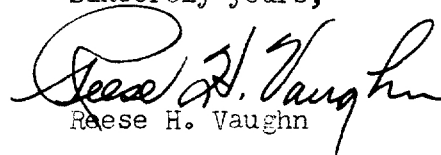

We are in a period of transtission in our Division, moving from Berkeley to Davis.

I will probably be able to send you most of the cultures of our collection by the time our laboratories are ready for use in Davis, sometime in October.

At the moment we are only working with a few and it would not be worth while to send them along at the moment.

I will give you 500 or 1000, gladly, as much as you are willing to let us take our time in handling the transfer problem.

Sincerely yours,

Reese H. Vaughn
