Joshua Lederberg  
Associate Professor of Genetics  
The University of Wisconsin  
College of Agriculture

Dear Dr. Lederberg:

Thank you for your letter of Feb. 15th. I wonder if it might be possible for me to spend a few hours with you on Saturday afternoon March 15th and also see how you do your isolations. I would appreciate very much the opportunity and hope it will not inconvenience you too much.

Sincerely yours,

Burton A. Waisbren, M.D.
