Dr. Joshua Lederberg
Department of Genetics
College of Agriculture
The University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg:

As you may remember I talked to you about a year ago in regard to our work in bacterial genetics. A lot has happened since that time and I wonder if there might be a time when I could see you again. It would be most convenient for me on a Saturday morning.

I am taking the liberty of enclosing the specific paper and data that I would like to discuss with you and hope that I may see you soon.

Sincerely,

Burton A. Waisbren, M.D.
