Dear Josh,

Forgive my literary style but today I am not dictating to a secretary.

I'll be home Sunday, so come directly to our house when you arrive.

Luria et al, Hershey, Delbruck, and maybe others should arrive early Sunday evening.

I still don't understand the difference in photoactivation between (K-12 and 58-161) and the series leading to W-1. I have a number of good ideas; the trouble is that I need all of them to explain what goes on.

I'm very eager to hear about your irradiation of "het".

Beadle has been giving some nice lectures.

Oh yes, Bernie Davis isn't coming this time.

Bar

P.S. We put you up at the Broadview Hotel. Not that your last visit wasn't pleasant, but I thought we should save our bed for expenseless travelers.
