

7/28/51

Dear Josh

Perhaps ~~my~~ letter was unclear. All of the cultures labelled B-X are B.

The others ~~except~~ for D-84 are B/n. D-84 is B.

The B-X series Goto sent me are cultures where he never observed reversion to prototrophy.

Thanks for the cold air mass. It got here

Fri night.

Let me speak to Jane about a date for us to meet the cold air.

B is on its way.

Aaron
