

Dear Josh,

Oct 24, 1956

I couldn't find  
my only copy of the duplication  
story. Just today I  
remembered loaning it  
to Ed Lennox, who is  
mailing it to me today. I'll  
forward it to you tomorrow.  
Please return when through.

We are suddenly  
having trouble growing bacteria  
on lactate, although they  
grow fine enough on glucose.  
Can't wait to work with  
broth again.

Alan
