University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

In reply to your letter of December 8th, I may say that I sent all the manuscripts for the Volume on "Sex in Microorganisms" to Washington on October 13th except one which did not reach me until two weeks later. I did not receive any word from the A. A. A. S. until recently when a letter from Dr. Meyerhoff stated that the Executive Committee had accepted the Volume subject to the approval of a referee, who had not yet submitted a report. Dr. Meyerhoff did not anticipate an unfavorable report. Mr. John Bencke, who has recently joined the administrative staff of the A. A. A. S. will have charge of the publication arrangements. I am awaiting some word from him.

It is inconceivable that proofs will not be made available to authors. It may be that when I hear from Mr. Bencke, I can persuade him to let you have your manuscript back long enough to make the changes you indicated in your letter. I shall try to arrange for this when I have an opportunity.

Very sincerely yours,

D. H. Wenrich
