Dr. Bruce Stocker
107 Hurlingham Road
London S W 6,
England

Dear Bruce,

We would like it very much if you could come to Eugene for a seminar when you are in the U.S. this May. Soon after the Microbiology meetings, e.g. during the period May 13-15 would be agreeable to us. We will provide for the expenses of your transportation to and from the west coast.

I hope you do not mind the fact that I am informing Josh and Hershel Roman that you will be on the west coast since they may also want to have you visit them.

When your schedule is arranged please let me know when to expect you here, and a title for your seminar. I also plan to be at the S A M meetings and will see you there.

Best regards,

Aaron Novick

*Hi ya Josh,
Hope you and Esther can finally come up for
a visit - at least before all the trees are cut down.
Best,
Aaron*
