Madison 6, Wisconsin

Dear Joshua:

Thanks for your good note of March 24th. I haven't had a chance yet to look up the Morgan reference but will be much interested to do so. Meanwhile, I have had a letter from Provost Buck at Harvard and he is apparently quite grateful for the information I sent him about you, but just as we feared an immediate move cannot be expected. This seems to suit your own desires so there is not much to regret. However, you never can tell when action may get going up there. In your place, however, I think it would be best to put the matter out of your mind entirely until you hear directly from them.

Cordially

Tracy
