THE BIOLOGICAL LABORATORY

Dr. T. M. Sonnenborn
Department of Zoology
Indiana University
Bloomington, Ind.

Dear Sonnenborn:

You told me at Philadelphia that you were interested in the plans for summer work here and that you might be able to arrange to spend the summer with us. The Laboratory will be glad to have you as a guest, and is ready to provide for your usual research facilities free of charge.

We hope to have quite a group of cytologists and geneticists with us this summer. The following expect to be here: Muller, Wright, Nebel, Rhoades, MacClintock, Schultz, Carlson, Gordon, Delbruck, Charles, Stern, and probably Kimball, Ephrussi and Giles.

Enclosed is a copy of the announcement of the Laboratory. I shall appreciate it if you will call to the attention of competent students the work which will be going on here this summer.

If you are interested in working here during the summer, please return the enclosed questionnaire at your earliest convenience.

With best wishes,

Sincerely yours,

M. DEMEREC
