Prof. Joshua Lederberg
Stanford University
Stanford

Dear Prof Lederberg ,

During the week June 18-23, I shall probably be visiting Stanford and I would like to ask you if it is possible for me to visit your laboratory some day during that week. In Uppsala I carried out some experiments* with counter-current distribution of bacteria and other microorganisms together with Dr Baird and Hofsten (see the enclosed reprint) and it would be very interesting for me to discuss these experiments with you and your colleagues.

Albertsson, P.

Please inform me if another time would be more suitable for you. I have also written a letter to Prof. Kornberg and asked him if I can see him ~~at~~ the same time. I shall be staying here in Los Angeles until the end of this year.

Yours sincerely

Per-Åke Albertsson

* Yes, of course I know about this, and will be very happy to see you. Some of my colleagues are especially interested in your methods.
