Dear Joshua,

I am sending you herewith a reprint of a recent letter to Nature. Also enclosed is a copy of the Vi-phage typing scheme. I think you will find it easier to appreciate the significance of the letter if you read it in association with the chart.

As you know, I have now regularized Alec's attachment to this department when he returns to England. I heard from him that Helen is probably coming to Bruce Stocker to do a Ph.D. So there will be a high concentration of your old friends in London.

Kind regards to Esther and yourself,

Sincerely,
Andy
