DEPARTMENT OF MEDICAL MICROBIOLOGY

June 8 1966

Dr. J. Lederberg
Dept of Genetics
Stanford Univ.

Dear Dr. Lederberg,

You may perhaps recall our meeting in Mr Skerman's Dept of Bacteriology, Univ of Queensland, Brisbane, some years ago. I am, at the moment, almost at the completion of sabbatical leave as a Fulbright lecturer, in the above Dept. under Dr. Irving Gordon.

On Monday June 20 I hope to visit Palo Alto and would be glad of the opportunity of meeting you again. Actually I will be on a motor-tour to Boulder, Co. to attend a conference on Medical Education and will be passing through Palo Alto on that date.

Unless I hear to the contrary, I hope, then, it will be convenient for you, to visit you on June 20

Yours sincerely

John G. Atherton.
