Dear Joshua: Had you seen Weid's previous MS?
~~I shall appreciate receiving a reprint of your article.~~ I hope the new
one eliminates the junk. If it comes to me, I
shall consider your opinion as 99% binding.
I agree that the effect should be made known
in the original paper, though page was out of print, which appeared
Cold Spring Harbor, hot but pleasant.
Sincerely yours,
Best regards to you + Esther (thank her
for the cultures) - Lu
