NATIONAL ACADEMY OF SCIENCES
NATIONAL RESEARCH COUNCIL

2101 CONSTITUTION AVENUE, WASHINGTON 25, D. C.

August 5, 1958

Dr. Joshua Lederberg
Department of Medical Genetics
School of Medicine
Genetics Building
University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

The Space Science Board greatly appreciates your response to Chairman Berkner's telegram of July 3, 1958, which invited your suggestions for satellite experiments.

The co-operation and support of the scientific community will greatly assist the Board in satisfying its immediate obligations to the Government. The Board has transmitted to the several federal agencies concerned with space sciences, a preliminary report to be used for planning purposes. In addition, all proposals and suggestions received (as necessary copies are available) will be considered by the appropriate Committees of the Board, in order to form the basis for a more comprehensive Program which will be provided to the Government at an early date.

On behalf of Dr. Berkner and the Space Science Board, I am expressing most sincere thanks.

Sincerely yours,

R. C. Peavey, Secretary
Space Science Board

Berkner
