Dear Josh and Esther,

We seemed to have stepped  
into another world here. Boys seeing family and  
friends and getting wet in the rain. Manchester  
looks as going as ever though somewhat more  
prosperous with a surprising number of new  
cars on the roads. Last week we were in  
Cambridge looking around the dept. and sorting out  
our personal belongings. (It is as beautiful as ever  
but judging from T. Buckley's and Ashby's comments  
the administration has not changed! There is no  
bitter feeling about my departure at all, even  
if anything! Bruce Stokes is as reliably new  
so we plan to see him just before we come  
back. I go to Cambridge again next week  
before going to the Hague Congress.

I was pleased to hear about the money  
Conference and have written a letter of acceptance  
to Neal.

Best wishes,

Walter & Julia
