Doctor Joshua Lederberg  
Department of Genetics  
University of Wisconsin  
Madison 6, Wisconsin.

Dear Josh:

As you may know, I recently received a letter from Professor R. F. Holland, Department of Dairy Industry, Cornell. Max Zelle is leaving Cornell to take a headship of the biology section of the AEC. Dr. Holland is therefore interested in obtaining a microbial geneticist to replace Max. I intend to indicate my willingness to consider the position at Cornell. I would like to submit your name as a reference.

*course  
have*

Sermonti is off on a tour of California. He will be back in about a week. He will be in Madison on Nov. 21 to see Stauffer and Backus. He leaves for New Haven at the end of this month.

I hope to see you in Madison before you depart for Stanford. I know that you will be extremely busy during the next few weeks. If you could indicate some time that might be satisfactory with you, I will certainly try to meet your schedule. If you are so tied up that a visit seems unwise, do not hesitate to say so. I will certainly understand. We will meet many times in the near future.

\*

My very best wishes to you and yours.

Sincerely,

*S. Gaylen Bradley*

S. Gaylen Bradley.

*\* I am very sorry to have to say this but in the circumstances I'm afraid it would be unwise. But we both forward to seeing you at Stanford some time next fall. Your good wishes are very much appreciated.
