Dear Josh & Esther:

A brief reply to your letter of August 17. How did you find out about #5 so quickly? She arrived only a few days ago. I have enclosed a picture; please note strong familial resemblance. Her full name--Lady Cinnamon According to Ridgeway.

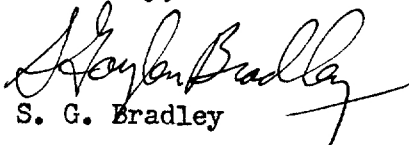

Thank you for the suggestions for our opening. I will encourage Professor Syverton to invite one or more to visit us.

Orenski will require more thought. I'll write you within the week about my thoughts on him.

We all hope that you will be able to include Minneapolis in your stops this year.

My very best wishes to you both. Remember, if we can't have you both, we'll reluctantly settle for either.

Sincerely,

S. G. Bradley
