Dr. Joshua Lederberg  
Department of Genetics  
Stanford University School of Medicine  
Palo Alto, California

Dear Dr. Lederberg:

Dr. E. O. Dodson is revising his textbook of genetics, to be published by Reinhold. I have offered to help him with the new edition.

One of the additions we wish to make will be the inclusion of portraits of a few well-known geneticists. We would like to include a photograph of you, preferably previously unpublished.

If you can send one to me, I will be careful to return it as soon as the publisher has made the reproduction. A picture taken in the milieu of the lab would probably be best, if available.

} more on hand  
V. Bryson

Sincerely yours,

Vernon Bryson

You know, Vernan,  
since you give me room for  
the photos, I would just as  
soon not. Thanks anyway, how.

John  
15. The option isn't always  
so accessible & I think  
you for it.
