Dear Sir:

Dr. E. L. Durrum recommended you to me after I had asked him for help concerning my science project. I am very interested in Genetics and particularly interested in Genetic changes in mice such as artificial mutations. I would be very grateful if you could help me in anyway. I have not yet started and I am looking for any useful hints upon which to base a project.

Thank you

Mary Clark

P.S. I am 17 years old and a junior in high school
