Stanford, California

Dear Josh:

I am sorry that I wasn't able to come to the session last weekend, but things had just piled up on me and I couldn't get away. I haven't had a chance to talk to Carl yet about what transpired, but I suppose that you will issue a memorandum covering the discussion at the meeting so that I will have an idea about the direction that was taken.

The other matter that is pressing me now is a letter from Seeley regarding the Sagan manuscript that I sent you some months back. Apparently you haven't taken any action on it, and I wonder if it would be possible for you to return it to me so that we may decide what to do with it. Many thanks.

Greetings and very truly yours,

Melvin Calvin
Professor of Chemistry
