Professor Joshua Lederberg
Stanford University
Medical Center
Department of Genetics
Palo Alto, California, USA

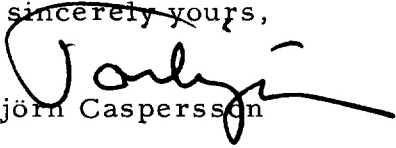

Dear Joshua:

Many thanks indeed for the book, which I have enjoyed very much, mainly in the nights in the bed - that is ~~in~~ a place where one does not write letters of thanks.

The working plans, we have together with the Boston group you know of, have suddenly got widened very intensely as a result of my visit to Boston after the October-meeting in New York. In fact I am just going back to Boston tomorrow for a continuation of these discussions and there has been little intelligent work done in the laboratory by me these last weeks which is the reason I have not let hear from me before. However, in early December I will be back again and start a more stable existence.

With kindest regards from house to house, I am,

Very sincerely yours,

Torbjörn Caspersson
