Dear Joshua,

thank you very much for having generously trusted and okeyed the interview, which is now on press.

As you maybe already know from Luca, my boss was defeated at the elections for the examining board. Consequently it is almost sure that I shall not obtain the chair. In this case, I shall be ready for export and in due time I shall ask you if you know of any job which suits me.

I am still thinking to the "antibodies" story.

Please send me a reprint of your paper, as soon as you have it.

Best regards to Ester.

Sincerely yours,

(prof. Ruggiero Ceppellini)
