DEPARTMENT OF  
BIOLOGY

Professor Joshua Lederberg  
Dept of Genetics,  
Stanford University School of Medicine,  
Palo Alto, California.

Dear Dr. Lederberg:

I am very glad to have your suggestion that we make an effort to develop a system of nomenclature for bacterial genetics which **could** be used for listing in computer selection. I sincerely hope that the problems you encountered can be solved to satisfaction of all concerned, and I can assure you that this matter will be considered at our **conference**.

An invitation to attend the conference has been sent to Mr. Okum. Also I am asking Dr. H. E. Umbarger, to send him the invitation to attend the Symposium. His travel expenses and living expenses during the conference (but not during the whole Symposium) will be covered from a small grant we received from the Genetics Society.

Sincerely yours,

*M. Demerec.*
