

June 29, 1956.

Dear Joshua,

If the Biotechnica Chimica (? sp.) is still selling o-NO₂-~~4~~-phenylβgalactoside I'd like to have a gram or so sent to me here at the MBL at their earliest convenience (i.e., within the next couple of weeks or less). I'd appreciate your passing ~~##~~ this on as an order, if they'll trust me, or else sending me their address. Official univ. order can be sent on request, but could be more expeditiously arranged as a confirmatory order after receipt.

We look forward to seeing you and Esther here next month. Sorry to bother you with this order, but I don't have their address.

Sincerely,

Bernice
