Dear Joshua:

Many thanks for the excellent reproduction of Figure 4 of your paper with St. Clair, which arrived in four copies.

I hate to bother you further, but I had hoped to have in addition an illustration of spheroplast formation in liquid medium, such as Figure 1 of that paper. This was also requested in my initial letter, and I wonder whether you would be able to get copies made without trouble for yourself.

With best regards,

Sincerely,

A handwritten signature in cursive script, appearing to read "Bernie".
