

RAPALLO

Dear Josh & Esther, we

S. Michele di Pagana are taking a ~~three weeks~~  
 S. Michele di Pagana holiday with the family  
 S. Michele di Pagana in the new house. Everything fine inchi-  
 S. Michele di Pagana ding the weather, but Violetta has a  
 staph infection which is somewhat trou-  
 blesome. With Aug 24 will start  
 work again. Tempo Medico has  
 sent you (and to me also) the Milan  
 interview. There are a few mexact  
 tudes, but none of them serious and  
 on the whole I think they made  
 a good job. The committee for  
 examining candidates to the genetics  
 chair has been named. Geneticists  
 have not obtained a majority, as  
 I feared. Giovanni's and Ruggio's  
 chances seem pretty dim, I hope  
 my own have not deteriorated too  
 much. It is very unfortunate. All  
 the best from Alice, the children  
 and myself Luca. 13.8.59.

Carrolli
