Dr. Joshua Lederberg
Department of Genetics

Dear Dr. Lederberg:

I am enclosing a copy of our report on germ-free animals. This is not the final copy, but I believe you can obtain the general idea from this report. I find that I only have one copy of the final report and you are free to look at it, but I hate to let it out of my office in case it gets lost.

Sincerely yours,

C. A. Elvehjem
