Dr. Luca L. Cavalli-Sforza
Istituto de Genetica
Via Sant 'Epifanio, 14
Pavia, Italy

Dear Luca:

I thought I should write and confirm the fact that there would be a place at the Microwave Laboratory for your son to work on a project and to join the Student Summer Program. For various reasons, including the problem of a visa (he would need an H-3 visa for training purposes), it doesn't seem probable that he will get paid for this work.

It would be helpful if I could hear as soon as possible about your son's interest in this.

Rhoda and I are looking forward to seeing you again this summer and meeting your family.

Best regards,

Elliott Levinthal
