ABH/EM

22nd May, 1958.

Dr. Joshua Lederberg,
Department of Genetics,
College of Agriculture,
University of Wisconsin,
Madison, Wisconsin,
U.S.A.

Dear Dr. Lederberg,

Dr. O.H. Frankel, Chief, Division of Plant Industry, CSIRO, Australia, passed through London recently en route to the Continent. I am sending you this note on his behalf conveying his personal greetings and to say that he would like to visit you and colleagues at Madison for the period Thursday August 14 to Monday August 18 inclusive. He will be attending the meeting of the American Society of Agronomy at Purdue earlier that month.

He asked me to write to Dr. Brink also (which I have done) and request that he kindly confer with you and arrange a programme for Dr. Frankel for his five days in Madison. He will be accompanied by his wife.

Dr. Frankel would like to see workers in genetics, agronomy and botany, including Dr. Skroog and a young colleague John Zwar, who is working under him.

Dr. and Mrs. Frankel will be travelling to Montreal by air on Tuesday August 19 for the International Congress of Genetics. His contact address until the end of July will be A.S.L.O., Africa House, Kingsway, London, W.C.2.

Yours sincerely,

Alan B. Hackwell

A.B. HACKWELL.

Scientific Liaison Officer.
