10/16/59.

Message _____

Just a note to say two things. (a) I enjoyed the personal part of our visit - Esther and you made my spirits soar. (b) Let's think in terms of a me by next August (give or take whatever time is necessary). I will call it - until you supply a better handle, "Transduction - Then & Now". When you want a publishing contract, say so. - Stanley Schaefer will drop in to see you some day.
