Dr. J. Lederberg
 Department of Medical Genetics
 University of Wisconsin
 Madison, Wisconsin

Dear Dr. Lederberg:

This is just to remind you of our conversation after the Harvey lecture. I should be most interested in testing your DAP auxographs with regard to their biochemical block. I would also be interested in your method of selection which was only briefly sketched out during your lecture.

Sincerely yours,
Charles Gilvarg
 Charles Gilvarg

CG/clS P.S.

In case this may be of some interest to you I am sketching out what is known of DAP biogenesis so far.
