Dr. Joshua Lederberg
University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg:

In our department there is at present a vacancy in the permanent staff membership at the Instructor or Assistant Professor level which we are anxious to fill before the opening of the 1958-59 academic year. Appointments to this post will be made on the basis of the potential merit of the appointee as a teacher and investigator; we have no formulated preferences in regard to his field, although he should be prepared to discharge part of his teaching duties in the elementary zoology course for freshmen.

We will greatly respect your recommendations, should you have any.

Yours sincerely,

John
