Dear Josh:

Many thanks for your letter of December 4th and attachment concerning instrumentation. I shall study your notes carefully and will ask for reaction from my other associates.

Perhaps in the near future we can get together to compare notes on this important subject; perhaps you will be able to comment also on some other ideas we have in this field.

I shall give you a call once I have been able to digest your thoughts.

In the meanwhile, with all best wishes,

Sincerely,

E. L. Ginzton
