Dear Dr. Lederberg:

Enclosed is a copy of the third communication concerning radiation hazards and radiation standards.

As you will see immediately through its perusal, the very "foundation" or "cornerstone" of all radiation protection standards, past and present, now lies in ashes, exposed for its scientific nonsense.

I believe this entire sorry affair can only be regarded as a monument to men's arrogance when prodded by parochial interests.

Sincerely yours,

John W. Gofman
