Professor Joshua Lederberg,
Department of Genetics,
Stanford University,
Stanford, California,
U. S. A.

Dear Professor Lederberg,

I take the liberty to inform you of a correspondence that has been going between Professor Boyes, President of the Permanent International Committee for Genetics Congresses, Professor Lerner, U.S. delegate to this Committee on behalf of the Genetics Society of America and The American Society of Human Genetics, and myself.

I understand that a number of American geneticists including Professors Dunn, Landauer and Mirsky have applied to Professor Lerner protesting against the choice of Germany as a meeting place for the next International Congress of Genetics.

Any reaction to this discussion on your part or that of your colleagues should be made known to Professors Boyes and Lerner.

Yours sincerely,

Elisabeth Goldschmidt
