CABLE ADDRESS . UNATIONS NEWYORK . ADRESSE TELEGRAPHIQUE

9/1

11th September, 1961.

Dear Dr. Joshua,

You will doubtless be surprised to receives a communication from one whose find won the probably forgotten. Seriously though, I was just joking. I have been in New York for the past two weeks battling with the various sub-groups of the U.N. Seientific Committee on the Effects of Atomic Radiation. The current session is due to end on 15th September and I have been toying with the idea of coming to the West Coast after visiting Brookhaven and a few other places around here. I am just wondering if you would be at Stanford between the 23rd and 26th of this month. I am likely to be in San Francisco during those days and would naturally like to take the opportunity of paying a visit to your place. Please let me know your programme.

With warmest regards to you and Esther.

Yours as ever.

(A. R. GOPAL AYENGAR)

P.S: As then may not be time enough for your to reply to reach me before 15th, not you Mean right to this following address marting to await arrived:

Dr. Joshua Lederberg, Department of Genetics, Medical School, Stanford University, Palo Alto, California.

C/o Mrs Padma Aladjem 845, Las Palmas Road Pasadena, California. (Jexteet to reach Pasadena by 15, 20 tx)
