Dear Josh:

First, congratulations on the big award.

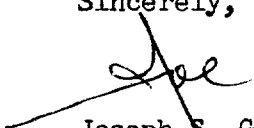

Second, I would like to endorse the enclosed invitation from the Phi D. E. fraternity. The invitation is self-explanatory and I do hope that you will be able to accept.

The medical students at Penn have always shown a keen interest in microbial genetics. They are interested in your work and you certainly will be well received by students and faculty.

If the date is inconvenient the lectureship committee is prepared to change it to best fit your plans.

Hoping that you accept,

Sincerely,

Joseph S. Gots
