

Holiday ~~card~~

Medical School,
Herston N.9.

UNIVERSITY OF QUEENSLAND
BRISBANE

September 5, '57.

Dear Josh,

I enclose a copy of the newspaper article you were interested in. Please let me know if you want any more.

Are you and Esther acclimatized to the sub-antarctic conditions yet? I hope Esther's cold has improved in spite of it all.

I have written to Hector McWhae about your proposed visit to his sheep station, and as soon as I know something of his movements I shall let you know where to contact him, or else arrange for him to telephone you.

Thank you both very much for the record you gave us. It could not have been a more fortunate choice. It's a wonderful selection of songs, &

UNIVERSITY OF QUEENSLAND
BRISBANE

all the more appreciated because it is
probably unique in Brisbane!

We did enjoy your visit
last week, and hope you can come
back again before too long.

Best regards to Esther and
yourself, from all of us.

Sincerely,

Bill.

P.S. You were asking about a U. Q. handbook
for details of courses etc. I shall send
one of these to Madison. B.
