Prof. J. Lederberg
Department of Medical Genetics
Stanford University
Stanford
Californien, U S A

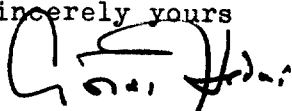

Dear Prof. Lederberg,

This is just to tell you that a ball-joint of the type you saw in our laboratory, and wanted to study, has been sent under separate cover. It is manufactured by: Ingeniörsfirman Sinus, Vallingatan 37, Stockholm C.

I am sorry about the delay in this matter, but it completely slipped my mind until the other day.

Best wishes and looking forward to seeing you

Sincerely yours

C.-G. Hedén
