Department of Microbiology
Jan 2nd 1957.

Professor J. Lederberg.
Department of Genetics.
University of Wisconsin
Madison, Wisconsin U.S.A.

Dear Dr. Lederberg, I would very much
appreciate receiving a reprint of your
article "Bacterial protoplasts Induced by
Penicillin", P.N.A.S. 42. 574. 1956

I don't know if Professor Rubbo has
mentioned it, but I am joining his
department in March this year. I look
forward to meeting you and your wife
during your visit to Australia.

Yours sincerely

Donna Holloway
