Dear Josh:

I'm glad the TV outfit is OK. I could not locate the repair manual. If any servicing problem comes up, contact Mr. Johnson at Gray Audio-graph in San Francisco, who is the local Hallamore representative.

Have made inquiries about the glass tape. The Local Corning representative only know that it exists and has written on for more details. I am also told that there is a Dupont Mylar that should be satisfactory in terms of lateral rigidity and insensitivity to temperature. Will let you know more when we receive the information.

Best regards,

MARIA, D.
