

July 3, 1963

Dr. Frank Brink, Jr., Chairman
President's Committee on the
National Medal of Science
National Science Foundation
Washington 25, D. C.

Dear Dr. Brink:

Dr. Tracy Sonneborn of Indiana University has just written me concerning his nomination of H. J. Muller for the National Medal of Science, which I am most happy to endorse. He tells me that he had already quoted me in extenso in support of his own nomination of Dr. Muller, and it may therefore be unnecessary for me to add any additional language. There can be no question of the correspondence of Muller's career to the criteria for candidacy that your letter enunciated.

Yours sincerely,

Joshua Lederberg
Professor of Genetics
