Dr. Joshua Lederberg  
Director, Joseph P. Kennedy, Jr.  
Laboratories for Molecular Medicine  
Stanford University School of Medicine  
Palo Alto, California

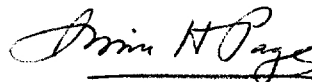

Dear Doctor Lederberg:

I am puzzled by your memo. It doesn't look like three other guys to me, but from what Mark Parker wrote to me, he wanted the negative destroyed. Whatever that may mean, I hope we haven't done you wrong.

I liked your Molecular Biology, Eugenics and Euthenics immensely. If you have got any other similar efforts, do let me know. You write with such clarity even I can understand it and that takes a bit of doing.

With warm personal regards,

Cordially yours,

Irvine H. Page, M.D.  
Director, Research Division
